Board of Commissioner

Fatchul Birri

President Commissioner

He was born in Malang in 1966 and graduated from the Faculty of Civil Engineering at Brawijaya University in Malang.

He has held several key positions at PT PP (Persero) Tbk, including Branch Head VII (Denpasar), Branch Head VIII (Makassar), SVP of the OBC Bureau (Operation & Business Control), Acting SVP of the QHSE Bureau, SVP of the SCM & IS Division, and SVP of OC & SCM. In 2023, he was assigned a new role at PT PP Urban as the President Commissioner.

He has no affiliation with other members of the Board of Commissioners, members of the Board of Directors, or shareholders of PT PP Urban.

Hasanuddin Sugiharto E
Commissioner

He was born in Marauke in 1969. He graduated from the Faculty of Architecture at the Indonesian Institute of Technology in 1993 and then completed his Master's degree at UCSB California in 1994. He has been actively involved as a board member of IAI Banten since 2006 and is active in the Indonesian Precast and Prestressed Experts Association. Since 2010, he has served as the President Director of a regional-owned enterprise in Bangka Belitung.

In 2014, he served as the Director of PT Indo Beton Jaya and worked as an Architect at Arcinema Design. He was appointed as a Commissioner of PT PP Urban in 2020. He has no affiliation with other members of the Board of Commissioners, members of the Board of Directors, or shareholders of PT PP Urban.

M. Kholid Syeirazi
Independent Commissioner

He was born in Pekalongan in 1979. He obtained a Bachelor's degree in Philosophy from Gadjah Mada University in 2023. He then graduated with a Master's degree from the Faculty of Political Science at the University of Indonesia in 2007, and he earned his Doctorate from the same faculty in 2022.

He has extensive experience, starting as a Commissioner of PT Angkasa Pura Logistik (2020 – 2022), actively serving as a lecturer at the Faculty of Administrative Sciences at the University of Indonesia (2019 – present), as a member of the Audit Committee at PT Reasuransi Indonesia Utama (Persero) (2015–2019), and as an expert staff member at the Indonesian Audit Board (BPK RI) in the field of Oil and Gas Inspection Development (2011–2014), as well as an expert at the BPK RI in the field of Natural Resources and Environment (2010–2011). He was assigned a new role at PT PP Urban in 2022 as an Independent Commissioner.

Director's Statements

Fuad Prabowo President Director

PT PP Urban is the oldest subsidiary of one of Indonesia's top state-owned enterprises (BUMN), PT PP (Persero) Tbk. Established in 1989, PT PP Urban has successfully expanded its business over time and is committed to becoming one of the best contractors in its class.

With URBAN Construction as its core business, PT PP Urban is strongly committed to delivering innovative and high-quality construction solutions. The company focuses on building a wide range of construction projects, including hospitals, housing, markets, stadiums, data centers, universities, and offices.

In addition, PT PP Urban operates URBAN Realty, which focuses on the development of modern and sustainable housing and commercial properties. Through an innovative approach, the Realty business aims to provide high-quality homes tailored to the needs of urban communities. Integrated building management is also part of the company's commitment to ensuring that its properties are maintained in optimal condition, offering added value to their occupants.

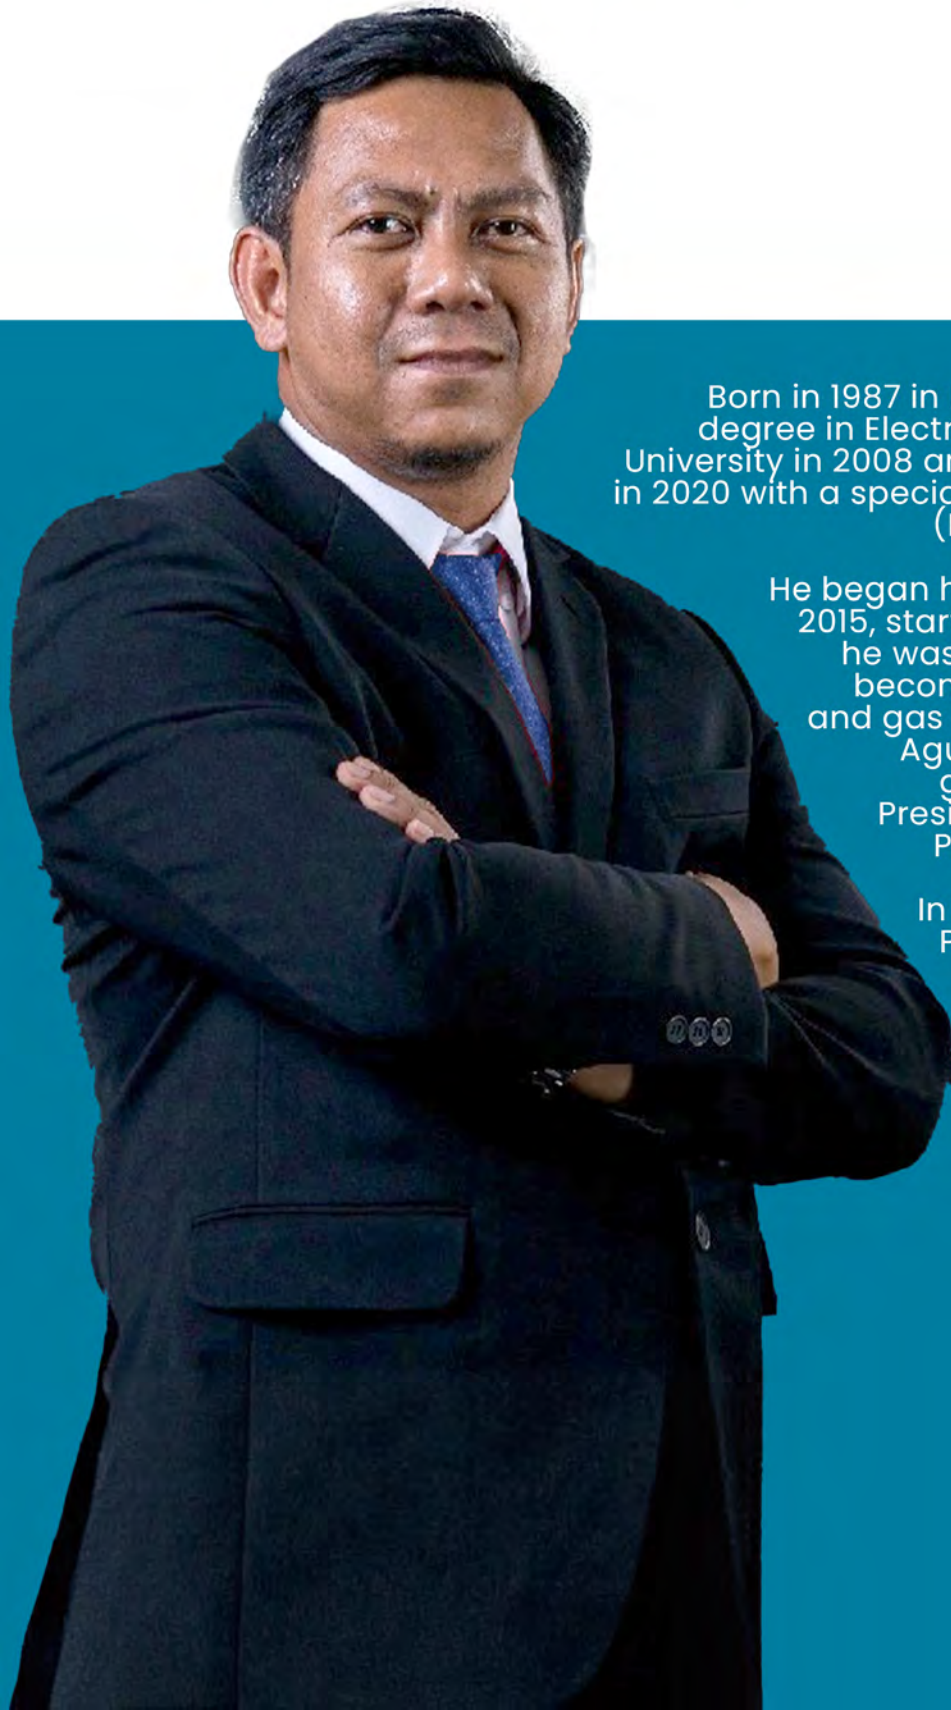

With its expertise and experience, PT PP Urban has successfully completed projects across Indonesia. In response to society's growing demand for better outcomes, PT PP Urban continues to innovate and uphold high-quality standards in every project it undertakes.

PT PP Urban is a pioneer of 360° business integration within PT PP (Persero) Tbk, covering all segments of construction and business development from upstream to downstream. We strive to maintain a synergy of excellence in everything we do.

Board of Director

Fuad Prabowo
President Director

Born in 1987 in Mojokerto, he earned a Bachelor's degree in Electrical Engineering from Diponegoro University in 2008 and completed his Master's degree in 2020 with a specialization in Strategic Management (MM) at Prasetiya Mulya University.

He began his career at PT PP (Persero) Tbk in 2015, starting as a Project Manager. In 2018, he was entrusted by the shareholders to become the President Director of the oil and gas company PT Odira Energy Karang Agung. Subsequently, in 2019, he was given the mandate to serve as the President Director of PT Sepoetih Daya Prima and PT Muba Daya Pratama.

In 2024, he was entrusted to lead PT PP Urban as the President Director.

Herry Nurdy Nasution
Finance Director

Born in Medan in 1982, he graduated with a Diploma in Accounting from the Medan State Polytechnic in 2004 and obtained a Bachelor's degree in Accounting from Darmawangsa University in 2008.

He began his career at PT PP (Persero) Tbk in 2018, starting as a Senior Manager of Finance & Human Resources in the Building Operations Division 1, and later served as a Senior Manager of Finance & Human Resources in the EPC Operations Division.

In 2023, he joined PT PP Urban and became the Finance Director.

Company History

Established in 1989 under the name PT Prakarsa Dirga Aneka, the company has continuously evolved, demonstrating its ability to identify opportunities and adapt to the surrounding business environment.

Business Line Overview

*Let your dreams be bigger than your fears,
and your actions louder than your words.*

PT PP Urban continues to develop at both the national and regional levels. Currently, the company has over 280 employees spread across various regions in Indonesia, such as Jabodetabek, Java, Bali, Kalimantan, Sumatra, and Sulawesi. Through its business lines of Urban Construction, Urban Precast, and Urban Realty & BM, PT PP Urban is determined to become a key national and regional player in urban housing development.

Urban Construction

By utilizing the long experience in the precast industry, PT PP Urban engaged as a contractor of precast-based apartment for internal projects, national, and regional

Urban Realty & BM

As a developer, PT PP Urban is building affordable housing and apartments (cash, credit, and lease) using its own land, in synergy with the private sector and state/local enterprises, as well as state land use. In addition, PT PP Urban also provides comprehensive building management services, ensuring that the properties developed are maintained to the highest standards, enhancing their value and creating a comfortable living and working environment for office, residents and tenants.regional

Urban Precast

In manufacturing, PT PP Urban will continue to produce and develop precast concrete products, ready-mix concrete products to meet the needs of the housing construction industry and other construction industry.

Investment Highlight

PT PP Urban offers a promising investment opportunity with a proven track record in delivering high-quality construction projects and innovative realty developments. Supported by strong synergies with state-owned enterprises and private sector partnerships, the company boasts a diverse portfolio across various sectors, including residential housing, commercial property, and building management. With a focus on sustainable growth, strategic land utilization, and a commitment to excellence, PT PP Urban is well-positioned to capitalize on emerging market opportunities, ensuring long-term value for its investors.

Construction Market Outlook 2024-2029

Total Construction forecast by category (T 2019 USD¹)

1. Figures adjusted to inflation with 2019 as base year;
 2. Energy category includes renewable & non-renewable power plants, refining, storage and distribution systems;
 3. Industrial category includes communication constructions, chemicals facilities, food processing facilities and all other manufacturing sites
 Source: IHS Global Construction Outlook; BCG Analysis

Sumber: BCG, 2024

The market in the Indonesia through 2028 will be driven by the transportation, water infrastructure, and building sectors, with a projected CAGR of 3.9%.

- The transportation segment is expected to lead sector growth with a CAGR of 6.5% (2023-2028), primarily driven by the Chinese market.
- Institutional and office buildings will see an increase of +4 percentage points (p.p.) and +3.6 p.p., respectively.
- Residential buildings and transportation infrastructure will account for more than 51% of the construction market by 2028.
- The development of green buildings and smart buildings is expected to rise significantly in the future.

Reputation as a State-Owned Enterprise **BUMN** Subsidiary

PT PP Urban, a subsidiary of PT PP (Persero) Tbk, has a strong reputation in the construction and realty industries. Prioritizing high standards, innovation, and quality, PT PP Urban solidifies its position as a key player in the industry. By integrating the BUMN Core Values of AKHLAK (Trustworthy, Competent, Harmonious, Loyal, Adaptive, and Collaborative), the company is committed to integrity and collaboration, driving sustainable growth.

Advantages of PT PP Urban's Business Line

Construction	PRECAST	REALTY	BUILDING MANAGEMENT
 <ul style="list-style-type: none"> We offer the best construction quality that meets high standards. Project execution is completed on time according to the established schedule. We provide competitive prices that guarantee the best value for every investment. Our QHSE standards comply with holding standards. We have a portfolio of projects including Data Centers, Hospitals, Sports Stadiums, and Government Buildings. 	 <ul style="list-style-type: none"> We guarantee high quality and reliability of products to meet customer needs. The prices we offer are highly competitive, providing the best value for your investment. We are committed to consistently meeting deadlines for every delivery and project completion. We specialize in certain products. 	 <ul style="list-style-type: none"> We provide affordable housing without compromising on quality. The housing we offer features a self-sustaining community concept, providing comfort and convenience for its residents. We have a purchasing assistance program that includes interest subsidies for customers. Our property prices are competitive. 	 <ul style="list-style-type: none"> We provide excellent service that prioritizes customer satisfaction. Our team is always responsive in answering inquiries and meeting customer needs. We have several property assets that can still be managed.

According to construction market trend data in Indonesia, the sector is expected to grow significantly, with Residential increasing by 16%, Industrial by 6%, and Hospitality by 5%. PT PP Urban has significant opportunities to enhance investment in these sectors, particularly in developing landed houses, apartments, and commercial facilities. With a projected market growth of 5.8% per year until 2026, PT PP Urban can leverage this momentum to strengthen its project portfolio and competitiveness.

PT PP Urban's construction development focuses on residential and institutional sectors. For residential, landed house development is prioritized, alongside opportunities in commercial building projects and the rehabilitation of old buildings. In the institutional sector, the focus is on developing educational and healthcare facilities to improve the quality of urban life.

Sustainable Construction Concept

Since 2007, PT PP (Persero) Tbk has implemented an Environmental Management System and obtained ISO 14001 certification from Lloyd's Register Quality Assurance.

In 2008, PT PP (Persero) Tbk declared itself as the first Green Contractor in Indonesia, committed to environmentally friendly construction processes from the start to the completion of every project.

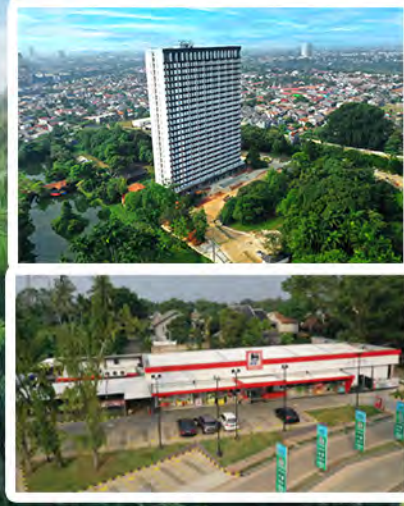

Urban Development

Urban Development is the business line of PT PP Urban focused on housing development, particularly for low-income communities, including Urbantown Serpong, Urbantown Karawang, and Sudimara Forestwalk. With experience in the precast industry, the company is ready to collaborate with state-owned enterprises (BUMN), regional-owned enterprises (BUMD), and private companies to build pure strata, long-term, and rental housing. Additionally, PT PP Urban's Realty and Building Management (BM) business line develops high-quality commercial properties, committed to sustainability and innovation to create integrated communities that enhance the quality of life for residents.

- LOFT 2 BR SGA 55,8 m²

Sudimara Forestwalk is a masterpiece by Urban Development, offering an affordable vertical living space nestled in an urban forest with a natural and eco-friendly concept. Positioned between Sudimara and Jurangmangu Stations, it is also conveniently close to Bintaro Jaya Xchange and the Pondok Aren Toll Gate.

With its modern and elegant "Natural Like-Living" concept, Sudimara Forestwalk will provide homes for more than 5,000 families, offering a harmonious living experience surrounded by nature.

12 KEY ADVANTAGES

- Lokasi Strategis & Premium
- Aksesibilitas Sangat Tinggi
- Lingkungan Modern & Aman
- Pasitas Lengkap
- Harga Paling Terjangkau
- Cara Bayar Fleksibel & Ringan
- Desain Modern & Trendy
- Children Friendly
- Strata Title HGB Yurid
- Smart Home
- Instansi Mengembangkan
- Developer & Investor Terpercaya

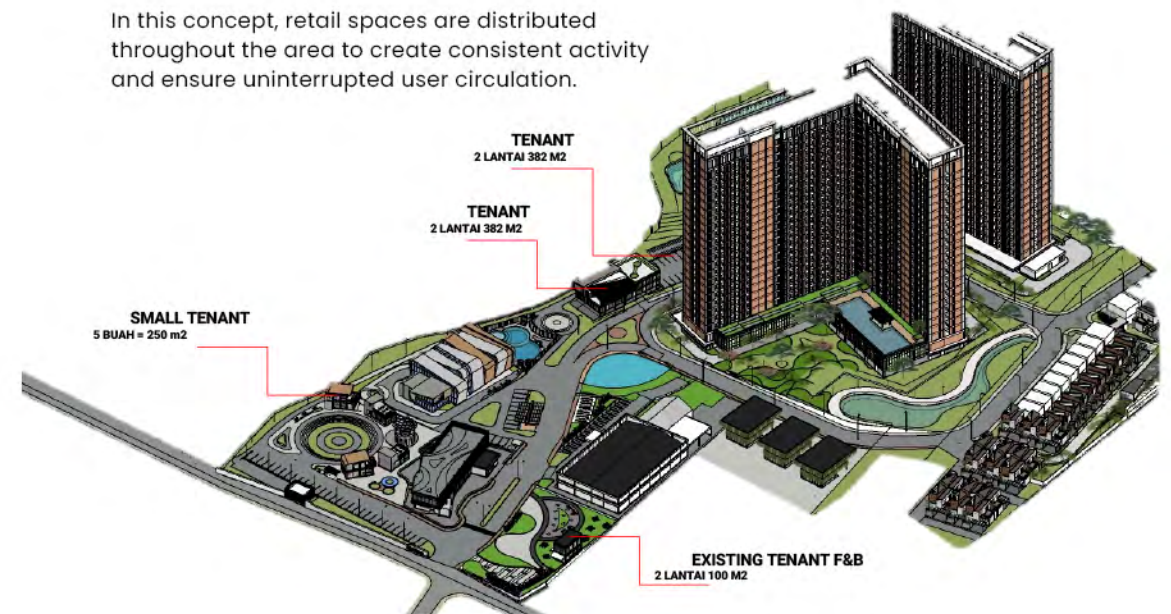

The public zone is integrated as a unified area within the commercial zone, including a marketing gallery, plaza, retail spaces, sports center, and swimming pool. Specifically, the sports center and swimming pool are synergized to form a unified community space.

The main access divides the area into activity zones, while secondary access connects all public spaces.

In this concept, retail spaces are distributed throughout the area to create consistent activity and ensure uninterrupted user circulation.

Urbantown Serpong

Urbantown Serpong, with its Modern Millennials concept, aims to achieve a more efficient and effective design through simplicity in form, space, materials, details, and colors.

This concept is reflected in the building's design and the interior design of the rooms, which are highly Millennial-friendly.

Urbantown Serpong embodies a cheerful, youthful, innovative, and modern character, designed to meet the desires of active and energetic millennials seeking comfortable living spaces.

Urbantown Karawang

- Harmony:** A landscape design that seamlessly integrates with the architectural concept of Urbantown Karawang.
- Lush Green:** Surrounded by lush and vibrant landscapes, creating a cool and serene environment.
- Social:** Creation of open green spaces for public activities.
- Terracotta:** Featuring a terracotta façade concept reminiscent of European architecture.

PROVIDING CONVENIENCE For Industrial Workers

Urbantown Karawang is the ideal solution for industrial workers seeking a comfortable home in a strategic location near their workplace (Industrial Area) and commercial areas.

Additionally, Urbantown Karawang offers several advantages:

- Peaceful atmosphere, away from noise
- 24-hour security with guards & CCTV
- Lobby, parking, and swimming pool facilities
- Affordable price starting at IDR 230 million
- Ready to move in!

Peace of mind after a long day at work.

Urbantown Karawang is affordable housing for millennials featuring compact living units. By optimizing land potential, the area is designed with a focus on comfort, accessibility, and quality of life, creating a more homey feel.

Strategically located in Karawang City, Urbantown Karawang is just 2 KM from the Karawang Barat Toll Gate and near the popular commercial district of Galuh Mas. It is expected to provide an affordable housing solution for workers in the area.

Landed House

Following the success of its affordable vertical housing developments, Urban Development is optimistic about its ability to meet the demand for landed houses in the national property market. These homes are designed with a modern, compact, artistic, and exclusive touch.

Currently, Urban Development has three landed housing products: The Urbanhouse in Urbantown Serpong, SKOV in the Sudimara Forestwalk area, and the newest addition, SAKALABUMI, located in Urbantown Karawang. Strategically located with high accessibility, these developments are designed to fulfill the market's dream of owning a landed house.

PP Plaza Comercial Area

PP Plaza is planned to be developed into a new commercial area. With this new concept, PP Plaza is expected to become a new business hub in the TB Simatupang area and serve as an independent revenue stream for PT PP (Persero) Tbk.

Urban Precast

Urban Precast is the business line of PT PP Urban that provides precast concrete products for buildings, bridges, docks, toll roads, and more. The company has factories located in Sadang - Purwakarta, Semarang - Demak, North Sulawesi, as well as mobile plants that produce various types of precast concrete.

**Precast :
Plant Semarang Demak**

The Semarang Demak Plant is a precast concrete factory built by PT PP Urban to support the construction of the Semarang - Demak Toll Road Project. The products produced by this factory are Concrete Spun Pile with various types and diameters including D 600 and D 800. The Semarang Demak Plant is located at Jl. Raya Semarang Demak Batu Village, Karangtengah District, Demak Regency.

Production of Concrete Spun Pile (CSP)

**Precast :
Plant Sadang**

The large need for precast products for national infrastructure development prompted PT PP Urban to build a precast factory. The second factory was built in Sadang, Purwakarta. Several types of precast products in this factory include: piles, sheet piles, corrugated sheet piles, half slabs, deck slabs, precast beams, u-ditch, and precast stands.

Precast :
Plant Lampung

Plant Lampung, one of PT PP Urban's mobile plants, is strategically located on Jalan Lintas Timur KM. 5, Dusun Kramat Bakau, Sumur Village, Ketapang District, South Lampung Regency, Lampung. Situated in a major industrial zone in South Lampung, the plant covers an area of 205,281 m². Currently, Plant Lampung is part of PT PP Urban's asset divestment program, marking a strategic move by the company to efficiently manage its asset portfolio with a forward-looking approach.

Land Area 205.281 m²

A large industrial area located in the southern part of Lampung.

Conveniently accessible to the nearest points such as Bakauheni Port and the Trans Sumatra Toll Road.

Precast :
PT Griyaton Indonesia

Land Area 36.240 m² (SHGB)

Building Area ± 11.749 m²

Main Interest

- Logos Metrolink Logistics Hub
- PT Bridgestone Tire Indonesia
- Harapan Indah Bekasi
- Terminal Pulo Gebang
- Summarecon Mall Bekasi
- Stasiun Kranji
- Pintu Toll JORR (Cakung)

PT Griyaton Indonesia, one of PT PP Urban's modern precast concrete plants, is strategically located on Jl. Raya Kali Abang Tengah, Harapan Jaya, North Bekasi, West Java. With a land area of 36,240 m² (leasehold) and a building area of approximately 11,749 m², this facility offers significant potential for those seeking profitable property investments. PT PP Urban is currently offering a prime opportunity through the divestment of this asset, providing an excellent chance to acquire property in a thriving industrial area with numerous advantages.
